

# Second Generation Intel-Powered Classmate PC Quick Guide:

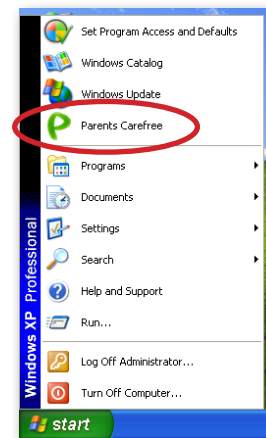

## Access Management (Parents Carefree Monitoring Software\*)

Parents Carefree is an Intel-powered classmate PC software utility that enables you to monitor and control what your child does on his or her PC. You can limit the usage of the PC to particular times and configure when, and if, they can access specific websites and programs. Additionally, you can monitor the programs, files, and network locations they have accessed, including the ability to take screen shots of their activities. With Parents Carefree you can confidently managing the future usage of your child by specifying software and internet usage for a week at a time.

### Accessing Parents Carefree

Use any of the following options to access Parents Carefree:

1. Double-click the Parental Control icon in the taskbar tray.
2. Start ▶ Click the Parents Carefree icon.

Once you have accessed Parents Carefree, enter your password in the login menu. If you do not have a password, you can get one from your school administrator.

## Setting Security Policies

Once you log on to Parents Carefree, you can create and modify the policies that determine what your child can access on their Intel-powered classmate PC. Here are your options:

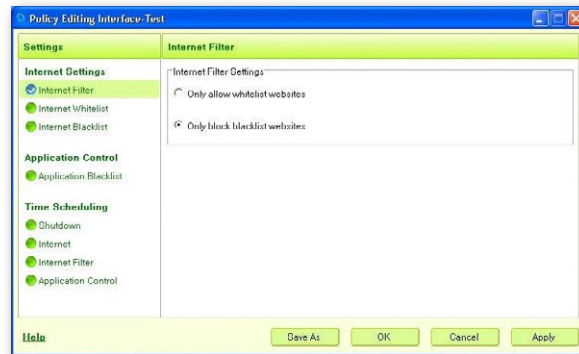

- **New:** Add a new policy to Parents Carefree.
- **Import:** Add a previously saved policy from a file.
- **Export:** Save a policy to a file.
- **Edit:** Edit a policy from Parents Carefree.
- **Remove:** Remove a policy from Parents Carefree.

# Changing Security Policies

To change the settings of a policy: Open Parents Carefree ▶ Enter password ▶ Click Edit

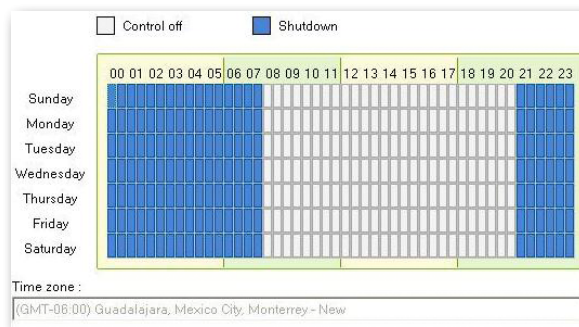

- **Internet Filter:** Allow Whitelist Web sites or block blacklist Web sites.
- **Internet Whitelist:** Add or remove sites from Whitelist.
- **Internet Blacklist:** Add or remove sites from Blacklist.
- **Application Blacklist:** Add or remove applications from the Applications Blacklist.

# Scheduling Availability

Time scheduling enables specific days and times to be set for use of the Intel-powered classmate PC, Internet, Internet filter, and Application Control.

- **Shutdown:** Set times and days for using the Intel-powered classmate PC.
- **Internet:** Set times and days for using the Internet.
- **Internet Filter:** Set times and days for using Internet Filter.
- **Application Control:** Set times and days for using Application Control.
