

Second Generation Intel-Powered Classmate PC Quick Guide:

Classroom Collaboration (Mythware e-Learning Class*)—Student

eLearning class for classmate PC enables teachers to wirelessly manage student PCs in the classroom:

- **Share** your screen, text, voice, video, or files with students
- **Monitor and control** student machines
- **Record and play back** sessions
- **Manage** online quizzes and tests

To Connect with Your Class for the First Time

1. **Students:**

Set your name to identify yourself at the Virtual Class (right-click on the Student Program Icon in the taskbar ▶ Set Name).

2. **Teacher and Students:**

Connect to the wireless network.

3. **Students:**

Select your teacher from the Session List and click Connect.

If the Session List doesn't appear:

- Right-click on the Student Program Icon in the taskbar ▶ Connect
- Click Connect and join class on the Student Program Floating Bar.

4. **Teacher:**

Waiting Connection List appears. Select students and click the Accept button.

Student Status Icons will appear. Click the lock button to keep students connected.

To Connect with Your Class after the First Time

1. **Teacher and Students:**

Connect to the wireless network.

2. **Teacher:**

Start and log in to the Master Program. With no students selected, click the lock button. All students are connected and locked.

Interacting with Your Class

Students can use Student Program to initiate several functions from their PCs to interact with the Virtual Class.

To access these capabilities, students can right-click on the Student Program Icon in the taskbar tray at the bottom right corner of their screen or by the Student Program Floating Bar at the top center of their screen.

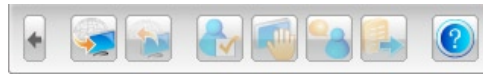

Student Not Connected to Network or Teacher
